PRESS RELEASE**

PIPER ALDERMAN ACTS FOR WALKER ON \$2 BILLION DEVELOPMENT

Piper Alderman acted for Walker Corporation in relation to a \$2 billion dollar development at Buckland Park alongside the Gawler River in South Australia.

The development, on a 1 000 hectare site, will cater for 25,000 people and include 8,000 dwellings, a town centre and shopping precinct as well as medical and community facilities, recreation areas and a school.

The National Head of the Property and Projects Division, Tony Britten-Jones, and his team assisted Walker with the negotiation and preparation of documents for the project, a joint development agreement with local owners.

Mr Britten-Jones said he was excited to be involved in such a significant project, which aims to capitalise on anticipated growth in the defence force and mining industry sectors and to provide affordable, sustainable housing for locals and families attracted to South Australia from interstate.
